PREFACE

The undersigned were appointed by the Faculty of The Newton Theological Institution a committee to prepare the eleventh edition (previous editions had appeared in 1834, 1837, 1843, 1849, 1854, 1859, 1869, 1875, 1886, and 1899) of the general catalogue of the Institution. Professor Brown was in Jerusalem during the year 1910-11, and the work of securing records and preparing them for the press was assumed by Professor Donovan. During the publication of the catalogue Professor Brown has read all the first proof and exercised a general supervision, but he should not be held responsible for any errors in the material of the work.

The effort has been made to utilize all available sources of information, and a very large correspondence has been conducted, not only in the immediate preparation, but also in the years since the last edition was published. Thanks are due to the brethren who have responded to circulars, and to many pastors, church clerks and officers of other institutions who have given generous aid. Numerous revisions of all previous work have been made; yet there remains much to be desired. Any additions, corrections, or suggestions will be most gratefully received by the editors.

A notable enlargement in this edition is the inclusion, for the first time, of book titles. The preparation of these lists has involved much labor, especially in the case of deceased authors, and this first attempt must necessarily be very imperfect. Added information regarding books by Newton men will be especially appreciated.

It was hoped that the sending out of manifold copy shortly in advance of publication would insure up to date records and so compensate for the extra labor. The manifolds elicted a quite unexpected amount of new material. All of it could not be used. The aim has been to make all additions calculated to bring the records to date, or correct any errors. Alterations in the body of a previously furnished sketch, whether in the shape of omission, insertion, or revision, could be made only in exceptional cases.

Much latitude has been allowed brethren who now write their names in different fashion from that formerly acceptable. It is believed that the position in class rolls will ordinarily identify the names even where portions have been dropped or new portions acquired.

With these introductory explanations, the committee have pleasure in submitting their work to the Faculty and their brethren of the alumni.

CHARLES RUFUS BROWN,
WINFRED NICHOLS DONOVAN,
Committee.

SPECIAL NOTE

This catalogue includes the names of all the trustees, professors, and librarians that have served the Institution since its foundation, and of all *matriculated* students excepting those whose connection with the Institution was severed by Faculty action. Those students who attended the school for a few weeks only, or who failed to secure standing in their respective classes, have not been regarded as members of the Institution.

The regular course of study covers three years, and to it are admitted graduates from the classical course in college, and such others as are able to pursue the course with profit. Other men have been admitted from time to time to a part of the work or to a special course of study known as the English course. These men have usually spent two years at the Institution, and during the years 1871-99 a special certificate of graduation was granted. A preparatory department was established in 1830, but it was discontinued two years later.

In this catalogue the classes are arranged in choronological order, the members of each class after the following plan: *first*, all the graduates in the regular course in alphabetical order; *second*, students who have credit for but a part of the regular course, separated from the full graduates by a single line; *third*, students who have credit for two years' work in English studies, separated from the regular students by a double line; *fourth*, students who had less than two years in the English course are separated from the other English students by a single line. Graduates of the school who took post-graduate work retain their regular place in the catalogue, and special mention is made of this work. Post-graduate students from other seminaries are placed at the head of the graduating class of the year in which the graduate study was completed and their names are separated from the graduates by a broken line. The names of graduates from the regular course are printed in capitals.

It is the aim to give the full name, academic title, date and place of birth college, length of residence at this and other theological institutions, date of ordination, and the public services and occupations of each student, with the place and date of death, if deceased.

The *abbreviations* used will be found immediately after this note, pages V-IX. The *corrections* and *additions* are at the end of the catalogue, page 295.

An asterisk (*) indicates a deceased officer or student, and in the columns of years, pages 1–21, indicates death in office.

In a name, a capital letter without a period is not an initial, but the entire middle name.

A denomination, or a state, or an occupation, once used in a record, is in force till another takes its place. After N. T. I., the state of Massachusetts is to be understood until some other state is definitely mentioned. Churches are Baptist unless otherwise named.

A single date following the name of an educational institution indicates the year of graduation. College graduates are understood to have the A. B. degree unless another degree is specified. As a rule, academies attended are not mentioned for men who took a college course.

A dash and semicolon or period following the year of entrance upon a service indicates that the person is still in the work last designated. A semicolon and interrogation point(; ?) at the end of a record indicate that further information is lacking.

Honorary degrees of the students, with sources and dates, are given at the end of the respective records. The degree of A. M. is not noted except in cases where an A. B. degree was not taken.

Summary by Occupations

This table is intended to show the occupations in which Newton men have rendered their main life service. It gives no adequate statement of the number who may at some time have engaged in a particular occupation. Thus many of the men enumerated as pastors have served as missionaries, college presidents, secretaries of denominational societies, and in other work; while a large majority of the men credited to other occupations have given some portion of their lives to the pastorate.

Of the 1267 men from these 34 institutions, 1074 held graduates' diplomas. In addition to the men from these 34 institutions, there have come from 79 other institutions, listed on p. VIII-IX, 117 students, of whom 96 were graduates. This gives a total college enrollment of 1384. The number of college graduates is 1170.

ALUMNI ORGANIZATIONS

At a meeting held in the Chapel of the Institution on the eleventh day of September, 1833, the following gentlemen organized The Society of Alumni of the Newton Theological Institution:—

Jonathan Aldrich
John Pratt
William Hague
Frederick Augustus Willard
Timothy Robinson Cressy
John Sharp Maginnis
Samuel Budd Swaim
Rollin Heber Neale
Mark Carpenter
John Holbrook
Asahel Chapin
Benjamin Herbert Hathorne
David C. Bolles
Henry Carr
John B. Cook
David W. Elmore
Nathaniel Hervey
Joseph Hodges
Isaac Mason Willmarth

A constitution was adopted at the same meeting, and provision was made for an annual reunion and address in connection with the exercises of the Anniversary. Since 1897 a second reunion has been held in December of each year.

In 1897 a committee was appointed to confer with a committee of the Trustees "with reference to arranging for an organic participation of the Alumni in the management of the Institution, including the nomination or election of a portion of the Trustees." The Northern Baptist Education Society, by vote at its annual meeting on Oct. 25, 1898, and by vote of its Directors on Nov 21, 1898, agreed to relinquish to the Alumni the right to elect three of the six trustees annually elected by the Education Society. On the 18th of April, 1900, a certificate of incorporation under the laws of Massachusetts was issued, declaring that

Charles Lincoln White
E. A. Capen
W. N. Donovan
Nelson B. Jones
Charles Rufus Brown
Albert G. Upham
George H. Whittemore
Edmund F. Merriam
R. O. Sherwood
William O. Ayer
W. F. Wilson
E. P. Tuller

their associates and successors, were consituted a corporation under the name of The Society of Alumni of The Newton Theo-

logical Institution. An act of the Massachusetts legislature, approved March 12, 1901, authorized The Newton Theological Institution to provide for the election of three trustees annually by the corporation known as The Society of Alumni of The Newton Theological Institution. The Trustees, at their annual meeting on April 30, 1902, voted "that the provisions in this change of the charter be adopted, and that the Alumni be authorized to proceed, in accordance therewith, hereafter to elect three (3) trustees annually after the order prescribed in the catalogue of 1902."

Beginning in 1900, the Society has annually elected three trustees. Since 1906 the election has been by a mail ballot. The annual catalogues distinguish the trustees elected by the Alumni from those chosen otherwise.

Membership in the corporation is elective. "But only such persons shall be eligible to election as are graduates of The Newton Theological Institution, or are entitled to have their names appear in the general catalogue of said institution as having there pursued theological studies." By various votes of the Society all persons entitled to have their names appear in the general catalogue under classes earlier than that of 1912 have been elected to membership in the corporation.

The principal officers of the Society have been as follows:—
